INSTALLATION AND DEBUGGING

- Manual Focusing:** When the projection image is blurred (as shown in the figure below), rotate the focusing ring on the fuselage to adjust the effect, so as to obtain satisfactory results. If you cannot obtain satisfactory clarity through adjustment, please move the fuselage to adjust it appropriately.
- Autofocus:** For versions with autofocus capability, after enabling the autofocus function in the settings interface, the mobile device can achieve automatic focusing.
- Autofocus:** Whether it's autofocus or manual focusing, as long as the version has the autofocus function, the focal length can be adjusted by operating the remote control.

*Please select the appropriate operation method for your device based on the model and version of the projector you are currently using, here are some general guidelines to consider:

INTELLIGENT PROJECTOR

Projection Size (Inch)	Projection Distance (M)
33"	1.5 M
52"	1.7 M
62"	2.0 M
80"	2.5 M
88"	2.8 M
105"	3.4 M

How To Power Off

- Press the ON/OFF button on the remote control or the power switch on the unit.
- Put the lens cap on and store the unit in a dry and cool place.

Before cleaning, you must make sure that you have unplugged the power plug. Do not use insecticides or other volatile chemicals on the projector or lens. Do not use rubber or vinyl products to touch the projector. This can damage or cause coating peel off.

- Clean the Projector**
Wipe with a soft dry cotton cloth. use a soft cloth dipped in a diluted neutral detergent to wipe it, then with a dry cloth. If you use chemical fiber cloth, please follow the precautions
Do not use thinner, benzene or other solvents to avoid quality degradation or peeling of the spray coating. When cleaning the dirt, you can insert a brush in the front of the vacuum cleaner, avoid directly use the vacuum cleaner without any connectors or the nozzle, avoid scratches.
- Dust cleaning of lens**
Use the same method to clean the camera lens, use the professional hair dryer for the camera or the cleaning paper for the glass's lens. Be careful not to scratch the lens.
- Dust cleaning at suction and outlet**
The dust in the air inlet and outlet prevents ventilation, which will increase the internal temperature and cause malfunctions. Cleaning guidelines: at least clean once use every 10,000 hours.
Turn off the projector, disconnect the power. Clean the exterior with an electric vacuum cleaner and install a brush head adapter on the vacuum cleaner. Please be careful not to use a vacuum cleaner without an adapter or brush head.

PLEASE NOTE

- Please read this manual carefully before use and keep it for future reference.
- Avoid exposure of the projector to dust, water / moisture and extreme temperatures.
- This device is not dustproof or waterproof, regularly clean projector vents to avoid cooling malfunction.
- Please use high quality power cord and under specified rated power supply.
- When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
- Do not cover the vents of projector and ensure it is in a well-ventilated area when in use, positioned at least 2 feet away from the wall from behind. Heating will reduce the life of projector and cause danger.
- Please cut off the power if the projector is out of use for long time.
- Users or third-party professionals should not attempt to disassemble the projector for testing and maintenance, in which case, the warranty will be void.
- For optimal viewing performance, the projector should be positioned at a height of 5 feet from the ground and at least 5 feet away from the wall or screen in the front.
- Use the remote control from behind the projector for convenient operation.

Note: Any damage caused by physical impact, water/liquid, fire, etc. caused by the customer or nature shall not be covered under warranty. Only product design, feature and functionality-related faults can be considered. As per the brand's discretion, the product is eligible for repair and not for replacement, during the warranty period.
