REMOTE CONTROL PARAMETERS

Charging condition: 5v 1A
 Battery capacity: 55mAh
 Charging current: About 50mA
 Full charge time: about 30-60 minutes
 Bluetooth Name: selfie

Solution to the case of failure of remote control to connect to mobile phone:

- Enable Bluetooth on your mobile phone and clear any paired devices.
- Power off and restart your phone.
- Power off and restart your Bluetooth remote control.
- Re-enable the Bluetooth connection.
- With Bluetooth enabled on both your mobile phone and remote control, search for the mobile phone on your remote control. When you find it, click "Connect." If the interface displays "connecting," press the remote control button continuously and quickly. This should establish a normal connection. (Note: This initial pairing process is required. Future connections will be automatic.)

For Android phones, resolve quantity/focus adjustment and/or no response issues by adding the sound solution:

- Open the camera and enter the photographing interface.
- Swipe left or find the camera settings.
- Click the volume key function.
- Set the volume key function to shutter (do not select zoom or focus).
- Individual mobile camera setting paths may vary. Please locate the appropriate settings for your device.

This remote control supports only the video recording function of mobile cameras. It does not support the video recording function of live streaming apps.

- Operation method:**
- Connect the Bluetooth remote control to your mobile phone.

- Open the camera app on your mobile phone or download another camera app.
- Switch to video mode.
- Click the remote control button to start recording the video.
- Click the button again to stop the video recording.

Usage status : The blue light flashes, turns off after connecting to the mobile phone. Click to take pictures, and the blue light flashes.

Charging status : The red light stays on while charging. When fully charged, the red light turns off.

Operating mode:

- Remote control, effective distance 10m
- Tripod mode
- Handheld mode
