For the Previous Song/Video press "-" on the headphones.

To Play/Pause press the power button on the headphones.

To Pickup/End calls press the power button on the headphones.

To Reject calls press and hold the power button on the headphones.

To Increase Volume press and hold the "+" on the headphones.

To Decrease Volume press and hold the "-" on the headphones.

Charge The Headphones

Step 1: Insert the Type C cable on the port located at the right slide of the headphone.

Step 2: The charging is indicated by red LED light.

Step 3: When charging is complete the LED light turns blue.

Note:
• Before using the headphones for the first time, it is recommended to fully charge the headphones. Also, please keep the lid of the charging case closed while charging.

• When the battery is 20% or lower, the LED blinks once every 30 seconds to indicate the same.

Switching Off The Headphones

Step 1: Press & hold the power button for 4 seconds.

Step 2: The LED lights stop blinking to indicate that the headphones are switched off.

How to Reset The Headphones

Step 1: Unpair the headphones & delete "Muffs M2" from bluetooth settings.

Step 2: Press the "+" and "-" buttons simultaneously for 5 seconds.

Step 3: Switch off the headphones.

Step 4: Switch them on and pair again.

Troubleshooting

Possible Problem/Issue	Fix
If headphones are not in connectivity mode	Follow: Reset the headphones
If headphones disconnect during phone call	Charge the headphones or perform factory reset
If Button controls don't seem to respond	After long usage, residual stains & dust might affect the buttons, please use a clean cloth to wipe those areas softly

Warning

• Please follow the instructions to operate

• Please don't use the headphones in extreme temperatures

• Please don't use the product near water

• Please keep the product away from heat sources, as the heat may damage it

•Don't jam the ports such as the charger port, LED port, etc.

It is recommended to utilize the product below the maximum volume in order to protect hearing and extend the headphones' service life

Advisable: The headphones start at 100% volume and it may need to be reduced when the headphones are switched on at first. This can be done by using the phone/media device.
