

MY BUDDY K3

Portable Laptop Stand

- ✓ Aluminium Alloy Material
- ✓ Multi-Angle Adjustment
- ✓ Ergonomic Design
- ✓ Ventilated design
- ✓ Anti-Slip Silicone Rubber Pads
- ✓ Improves Body Posture

Multi-angle Adjustable Laptop Stand - Work anytime anywhere for long hours with utmost comfort by adjusting the My Buddy K3 to your convenient angles and avoid any neck, wrist and spine related issues.

Compact Ergonomic Design - Portronics My Buddy K3 comes in a foldable compact design. Its aluminium alloy construction makes it lightweight, making it portable and easy to carry around.

Ventilated Design for Heat Dissipation - This laptop stand comes in a hollowed out design which gives it better ventilation. This makes heat dissipation easier and prevents devices' overheating issues.

Anti-slip Structure - My Buddy K3 has panels and grooves constructed at the ends to avoid any kind of slipping. For added slip-protection, there are anti-slip silicone pads present on the face of the stand to keep your laptop place while you are working.

Stability and Durability - Made out of aluminium alloy, this laptop stand has a sturdy construction. The rotational, bio-metal shaft support gives it added stability and support to avoid shaking and turbulence while working.

Easy to Use - Its ease of use makes it the ideal choice for anyone spending long hours on a laptop. Just place it on a surface, place your laptop on it, adjust the angle as per your comfort and you are good to go.
