

### GENERAL INFORMATION

| Item                        | Parameter Characteristics |
|-----------------------------|---------------------------|
| Product Type                | Bluetooth Speaker         |
| Bluetooth Version           | Bluetooth V 5.4           |
| Supported Bluetooth Profile | A2DP1.3.2, AVRCP1.6.2     |
| Bluetooth Working Frequency | 2.4-2.4835GHZ             |
| Bluetooth Range             | >=10m                     |
| Optimum distance            | <8m                       |
| Maximum sound power         | 3W                        |
| Frequency Response          | 120Hz ~ 18KHz             |
| Speaker battery             | 3.7V, 400MAH              |
| Music Time                  | 3H                        |
| Charging Input              | 5V-500mA                  |
| Charging Time               | About 1.5H                |

### TEST ITEMS AND STANDARDS

Instruments / Tools : Computer, Bluetooth Tester, Charging Cable

| ITEM                          | TEST CONDITIONS AND METHODS  | STANDARD   |
|-------------------------------|--|--|
| Bluetooth Connection and Name | Search for phone : Click to pair   | Successful connection<br>Bluetooth name :<br>Portronics Nugget |
| Startup & Shutdown            | Press and hold the button to turn the machine on and off. Double-click TWS to connect to the status. Press to play/pause.  | The machine starts normally, and the light is on.              |
| Bluetooth Player              | After connecting the Bluetooth tester or mobile phone to the blue machine, play music and listen for any current, small, noisy, broken, or other abnormal sounds.  | The sound is played normally without adverse effects.          |
| Function of The Button        | After using the Bluetooth tester to successfully connect to the audio and play music, test the button functions: long press to switch, short press to pause/play, double click for TWS and other normal functions. | Button function: Normal  |

|                        |  |  |
|------------------------|--|--|
| Connectivity Stability | After connecting your iPhone to the stereo and playing music, test the connection by listening for pauses or stuttering sounds while moving up to 10 meters away without obstructions.                                 | Facing the phone: >10 meters<br>Back to the phone: >15 meters<br>Music sound is normal |
| Automatic Connection   | Once the speaker is paired with a mobile phone, it will automatically reconnect to the same device when turned off and on again. While the speaker is off, the mobile phone cannot connect to other Bluetooth devices. | Automatic connection is normal   |
| Automatic tie-back     | Automatically connect back when the system starts.   | The automatic tie-back is normal   |

### PRODUCT USAGE

#### Condition

1. Pairwise deletion : prompt tone.
2. Connected state : prompt tone.

#### Button Function Operation

- Fully charge the Bluetooth speaker
- Then test electrical functions for normal operation.

### Bluetooth Connection Instructions

- For optimal Bluetooth connection, keep the speaker within 1 meter of your mobile device or other connected devices.
- Turn on Bluetooth on your device and search for "Nugget." Once paired, the speaker will confirm with a tone. You can now make calls and listen to music.

### WARNINGS AND PRECAUTIONS

- Avoid using abrasive cleaning agents to clean this product.
- Avoid heating or placing this product near fire sources, such as cooking stoves.
- Avoid exposing this product to direct sunlight for extended periods.
- Do not dispose of this product in a fire to avoid explosion.
- Do not attempt to disassemble this product for any modification, as it contains no repairable components.
- Avoid using this product in the rain.
- If you won't use this product for a long time, store it in a dry place and charge the speaker monthly to prolong its life. Avoid extreme temperatures and dust.
