

PIXEL

Wireless Speaker
with 32 LED Display Animations

Pixel Art
Color

Plunge Into The Bright World Of PIXEL Display Art: Do you like all things vibrant and artsy? Well, if you do, we here, have the PERFECT match! A beautiful speaker with an equally vibrant display, that pleases aesthetically and holistically!

32 LED Pixel Light Animations: A feature that defines PIXEL its literal name with pixel animations, will brighten up your listening experience by ounces. It has different cute and bright pixel icons, animations which move with every beat!

8W Speakers: Pixel has 8W speakers that give out absolutely pristine audio which aptly supports the aesthetic appeal of Pixel. This compact bluetooth speaker will surprise you with its deliverable efficacy.

Enhanced With Bluetooth 5.0: The speaker has been enhanced with bluetooth 5.0 which allows for a wide range of compatibility. This way you can just turn on your source device's and let it port with Pixel, and you are all set!

TWS (True Wireless Stereo) Function: The Pixel is truly powered with TWS that let's two speakers connect to form a system! You can create your own space for music and listening just anytime and anywhere!

Micro SD Card and USB Pendrive Slots: The wireless bluetooth speaker comes equipped with Micro SD Card slot and a dedicated USB pendrive slot for maximum variability. You can make use of both in case bluetooth is not your preferred porting type.

2400mAh Lithium Battery: Can this get any better? A higher capacity battery is all that is needed to power up your sessions. Thump away to beats with powerful audacity, all thanks to Pixel's runtime consistency!
