**Power Supply :**

1. Check that the unit is switched off.
2. Insert the small end of the micro USB cable (included) into the micro USB charging port on the back of the unit.
3. Connect the other end of the micro USB cable into the USB port of your powered computer or USB type power adapter and connect it to a wall socket. The LED near the micro USB charging port lights up in red when the device is charging.
4. Once charging is completed, the LED light up in green .

**Note :** Please note that the micro USB cable can only be used for battery charging and not for data transfer.

To turn the speaker on/off, Press and hold down button on/off on the top of the speaker. A signal will sound.

To adjust the volume, press button “-” to decrease the volume and press button “+” to increase the volume.

**Modes**

The speaker offers various modes : Bluetooth, USB, and TF card (up to 32GB).

- To switch mode, double-click on on/off button.

**Navigate Between Audio Tracks**

- To pause playback, press play/pause button. To resume playback, press play/pause button once again.

- To play the next track, press and hold down button “+”.

- To play the previous track, press and hold down button “-”.

**Bluetooth Pairing**

1. Activate the Bluetooth function on the speaker and your audio player (smartphone, tablet...) and make sure it is in discoverable mode.
2. Confirm pairing or select the Bluetooth name “Pixel” to connect your player to the speaker.
3. You can play an audio or a video file. The speaker will emit a sound after it has connected successfully.
4. To stop the connection with the speaker, press another mode on the top panel or a button on your audio player.

Once the connection has been stopped, the LED indicator will flash.

**Connect Two Speakers In Stereo :**

**Step 1:** Turn on TWS-enabled Bluetooth Speakers and switch them to Bluetooth Mode.

**Step 2:** To automatically pair both the devices, double Press on the Play/Pause button of any 1 speaker. Light will start blinking in one of the speakers once it is successfully paired.

**Step 3:** After pairing, you just need to turn on the Bluetooth feature of your smartphone and connect “Portronics Pixel” to start enjoying enhanced sound output.

**Step 4:** If you wish to disable the True Wireless Stereo feature, double press the play/pause button for 3 seconds and it will automatically disconnect

**Light Effects**

Press and hold for 5 seconds to turn the light effects on/off. To switch animation, press on/off button.

Press and hold for 2 seconds, battery level. For 5 seconds, lights effects off.

CAUTION : Too high volume can damage your hearing. For this reason, please turn the volume down.

**Connecting via Micro SD Card Mode**

Step 1 : Insert Micro SD Card in the slot (Class 4 generation)

Step 2 : It will automatically detect the SD Card and confirm ‘Micro SD Card Mode’

Step 3 : Select the song, it will start playing

**Connecting via USB MODE**

Step 1 : Insert the U disk in USB slot

Step 2 : The speaker will detect the disk automatically and confirm “USB mode”

Step 3 : it will play the music in the U disk automatically.
