Overview

Bluetooth Connectivity

How to pair the two headphones with my device ?

(before using it for the first time, please make sure that the charge is 100%)

Step 1: Take the two headphones out of the box. The headphones will be turned on and automatically get connected.

(If the earbuds are not connected to your phone for five minutes, the earbuds will get turned off automatically. Switch the headphones on manually by pressing the multifunction button for around three seconds.)

The earbuds will flash white light alternatively, which means the pairing is complete.

Step 2: Locate the Bluetooth settings on your device and turn it on.

Step 3: Search for 'Harmonics Twins S' among the available devices and then tap on the PAIR option.

Step 4: The voice command will announce 'CONNECTED' once it got paired. Then you can play your favorite music or speak to your loved ones on a call.

When the main ear glitter 2 times. sub ear glitter one time. it means the device is already connected.

Extra note :

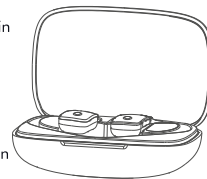

A. There might be a problem with pairing both of your buds to your device. In that case, place your earbuds back in the charging case and follow the above procedures.

B. These buds can also be used one at a time if you choose to. Only take one out and link to your device, and it is just going to work fine.

How to charge your earbuds

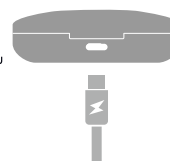

Earbuds only start charging once you place the earbuds in the charging slot in a proper way. You can charge the charging case and the earbuds simultaneously, or you can first charge the charging case and then use it to charge the earbuds.

There is a USB Type C charging cable in the box. Please use this to charge the case directly. The display will flash during the charging phase.

Step 1: Spot the charging port on the charging box.

Step 2: Use the supplied Type-C USB cable and link it to the adapter. We encourage you to use the original Portronics chargers.

Charging Display : It show charging percentage in display area.

Connecting to Two devices at once

The Harmonics Twin S has the capability of connecting to two devices at once. Read on to know-how.

Step 1: Pair your headset to the second device using the same method described above.

Step 2: Perform the same procedure with the first unit once paired with the second. The device that is already attached will not be disconnected.

Step 3: Both devices are now being connected to the headset. You can start playing audio from any device, according to your choice.
